

SEMESTER-VI
BA (Hons.) Geography

DISCIPLINE SPECIFIC CORE COURSE – REGIONAL GEOGRAPHY OF INDIA (DSC 16)

Course title & Code	Credits	Duration (Hrs per week)			Eligibility Criteria	Prerequisite
		Lecture	Tutorial	Practical/ Practice		
REGIONAL GEOGRAPHY OF INDIA	4	3	1	0	Class 12th	NIL

Learning Objectives:

- To introduce the regional dimensions of physiography, climate, soils and vegetation of India
- To show variations in resource base and population dynamics
- To understand the regionalization of India on the basis of different geographical parameters

Learning Outcomes:

- After completing this course students will be able to understand the regional diversity of India in terms of physiography, climate, resources and demography
- Students will be able to understand the basis of regionalization of India based on physiographic, economic and socio cultural factors

Course Outline

UNIT 1: Physical Setting: (9 hrs)

- Major Physiographic Divisions, Climate, Drainage Basins(Peninsular and Extra Peninsular).

UNIT 2: Natural Resources: (9 hrs)

- Soil, Natural Vegetation, Mineral (Iron Ore), andRenewable Energy Resources.

UNIT 3: Population: (9 hrs)

- Growth, Distribution and Density, Population Composition (Sex, Age and Literacy).

UNIT 4: Economy: (9 hrs)

- Agriculture (Rice and Wheat); Industries (Automobile industry and Information Technology), Development of diversified transport network.

UNIT 5: Regionalisation of India: (9 hrs)

- Physiographic (R.L. Singh), Social-cultural (Sopher) and Economic (P. Sen Gupta)

Teaching Plan

Unit 1: 9 hours

Unit 2: 9 hours

Unit 3: 9 hours

Unit 4: 9 hours

Unit 5: 9 hours

Total : 45 hours

Essential Readings

- Singh, R.L. (ed.) (1971) India: A Regional Geography, National Geographical Society of India, Varanasi.
- Sopher, David E. (1980) An Exploration of India: Geographical Perspectives on Society and Culture, Cornell University Press, Ithaca, New York.
- Gupta, P. Sen and Galina Sdasyuk (1967) Economic Regionalisation of India: Problems and Approaches, Census of India (1961); Monography Series – 1(8).

Suggested Readings

- Saroha, J and Singh, S. (2022) Geography of India, Pearson India Education Services, Noida.
- Sharma, T.C. (2013) Economic Geography of India, Rawat Publication, Jaipur.
- Majid, H. (2020) Geography of India, McGraw Hill Education (India) Private Ltd.
- Tiwari, R. C. (2019) Geography of India. Pravalika Publication, Allahabad.
- Khullar, D.R. (2020) India – A Comprehensive Geography, Kalyani Publishers, Ludhiana.
- Gopal Krishan (2017) The Vitality of India: A Regional Perspective, Rawat Publication, Jaipur.
- Singh, Gopal (2010) Geography of India, Atma Ram and Sons.

Hindi

- Tiwari, R. C. (2019) *Bharat ka Bhugol*, Pravalika Publication, Allahabad.
- Singh, S. and Saroha, J. (2019) *Bharat ka Bhugol*, CL Media (P) Ltd, New Delhi.
- Mamoria, C. B. and Mishra, J. P. (2021) *Bharat ka Bhugol*, Sahitya Bhawan Publication, Agra.

DISCIPLINE SPECIFIC CORE COURSE – EVOLUTION OF GEOGRAPHICAL THOUGHT (DSC 17)

Course title & Code	Credits	Duration (Hrs per week)			Eligibility Criteria	Prerequisite
		Lecture	Tutorial	Practical/ Practice		
EVOLUTION OF GEOGRAPHICAL THOUGHT	4	3	1	0	Class 12th	NIL

Learning Objectives:

- The course aims to present an overview of the evolution of the discipline.
- The course will introduce students to the multi paradigmic nature of geography as a discipline, key debates and emergence of modern geography

Learning Outcomes:

- On transacting this core course the students will be able to grasp the interdisciplinary focus of Geography
- Students will be able to identify the key debates that have shaped the subject
- Students will be well acquainted with the changing paradigms in Geography and the emergence of modern geography

Course Outline

Unit-1: Pre-Modern: Foundations of Geography: (9 hrs)

- Greek and Roman School, Arab School, Contributions of Chinese travellers, Age of Discovery and its Impact.

Unit 2: Paradigms in Geography: (9 hrs)

- Definition of 'Paradigm', major paradigms in geography – Determinism, Possibilism, Areal differentiation, Spatial Organization

Unit-3: Key Debates and Developments in Geography: (9 hrs)

- Geography as idiographic & Nomothetic, Systematic and Particular, General and Regional, Quantitative Revolution, Schaefer-Hartshorne Debate, impact of Darwin's theory

Unit-4: Theories and Models in Geography: 9 hrs)

- Systems Approach and its relevance in Geography, concepts of place, space, environment, interconnection, scale

Unit -5: Emergence of Modern Geography: (9 hrs)

- Emergence of Radical, Behavioral and Feminist Geography, Evolution of Geographical Thinking and Disciplinary Trends in Germany, France and USA, India

Teaching Plan

Unit 1: 9 hours

Unit 2: 9 hours

Unit 3: 9 hours

Unit 4: 9 hours

Unit 5: 9 hours

Total: 45 hours

Essential Readings

- Holt-Jenson, A. (2011), *Geography: History and Concepts: A Students Guide*, Sage.
- Couper, P. (2015). *A Student's Introduction to Geographical Thought: Theories, Philosophies, Methodologies*. SAGE Publications.
- Nayak, Anoop, and Alex Jeffrey (2013). *Geographical thought: An introduction to ideas in human geography*. Routledge, 2013.

Suggested Readings

- Cresswell, Tim. (2013). *Geographic thought : a critical introduction*. Chichester, West Sussex, UK :Wiley-Blackwell
- Arentsen M., Stam R. and Thuijss R. (2000), *Post-Modern Approaches to Space*, e-book
- Kapur, A. (2002) *Indian Geography: Voice of Concern*, New Delhi: Concept Publishing Company.

- Dickinson, R.E. (1969), *The Makers of Modern Geography*, Routledge & Kegan Paul, London.
- Dikshit, R.D. (1997), *Geographical Thought: A Contextual History of Ideas*, Prentice Hall of India.

- Johnston, R.J. (1997, 2004), *Geography and Geographers: Anglo-American Human Geography Since 1945*, 5th and 6th Ed., Edward Arnold, London.
- Peet, R. (1998), *Modern Geographical Thought*, Blackwell.
- Soja, E.W. (1997), *Postmodern Geographies: The Reassertion of Space in Critical Social Theory*, Rawat Publishers, Jaipur and New Delhi

DISCIPLINE SPECIFIC CORE COURSE – DISASTER MANAGEMENT-BASED PROJECT REPORT (DSC 18)

Course title & Code	Credits	Duration (Hrs per week)			Eligibility Criteria	Prerequisite
		Lecture	Tutorial	Practical/ Practice		
DISASTER MANAGEMENT-BASED PROJECT REPORT (PRACTICAL)	4	2	0	2	Class 12th	NIL

Learning Objectives:

- Understanding the basic concepts related to disaster management
- Detailed analysis about the different types of disasters in India
- Evaluating multiple dimensions of disaster management through field based study

Learning Outcomes:

- The course aims to provide an in depth understanding about types disasters occurring at different scales
- It will provide thorough understanding about human responses to different kinds of disasters
- It will give an in-depth knowledge about tracing the

NOTIFICATION

Sub: Amendment to Ordinance V

Following addition be made to Appendix-II-A to the Ordinance V (2-A) of the Ordinances of the University;

Add the following:

The syllabus of a Discipline Specific Core (DSC) Course -DSC 18 paper titled "Disaster Management – Project based study, running under the Department of Geography under Faculty of Social Science, based on Undergraduate Curriculum Framework-2022, has been revised and the same is notified herewith for the information of all concerned as detailed below:

DISCIPLINE SPECIFIC CORE COURSE

DSC - 18: DISASTER MANAGEMENT (Project-based Study)

Course Title &Code	Total Credits	Duration (Hrs per Week)			Eligibility Criteria	Prerequisite
		Lecture	Tutorial	Practical/ Practice		
DISASTER MANAGEMENT: Project-based Study	4	1	0	3	Class 12 th pass	NIL

Learning Objectives:

- Understanding the basic concepts related to disaster management.
- Detailed analysis about the different types of disasters in India.
- Evaluating multiple dimensions of disaster management through field based study.

Learning Outcomes:

After completion of the course, students will be able to –

- Describe the different types disasters occurring at different scales in India.
- Demonstrate understanding about human responses to different kinds of disasters in India.
- Trace a disasterscape, identify the risk areas and suggest ways for better preparedness for such disaster in future.

Syllabus

Unit 1: Introduction: (8 hrs)

Theory (4hrs)

- Concept of Hazard, Disaster, Risk, Vulnerability, Capacity and Resilience
- Classification of Disasters, Causes and Impact of Disaster
- Disaster Management Cycle: Prevention and Mitigation, Preparedness, Response, and Recovery ; Component of Disaster Management Plan

Lab Based Practice/ Field Based Practical (4 hrs)

- Role of Remote Sensing and GIS in Disaster Studies (Demonstration Based Lab Activity)

Unit 2: Disaster Vulnerability of India: (12 hrs)

Theory (4 hrs)

- Disaster Profiles of India (Earthquake, Flood, Drought, Cyclone, Landslide, Extreme Events : Heat and Cold Wave, Fire): Geographical Region and State Specific

Lab Based Practice/ Field Based Practical (8 Hrs)

- Identify one local and/or regional hazard or disaster and prepare it's disaster management plan
or
- One Day Workshop on First Aid and Stress Management or
- Video Demonstrations of Early Warning Systems for hazard and disaster
Developing Strategies to create and disseminate awareness on safety practices during disaster ✓

Unit 3: Institutional Setup for Disaster Management (12 hrs)

Theory (4 hrs)

- International: Yokohama Strategy, Hyogo Framework, Sendai Framework
- National: Disaster Management Act 2005, PM 10 Point Agenda on Disaster Risk Reduction (DRR), NDMA, NIDM, NGO's and Civil Society
- Community Based Disaster Management: Concept and Framework, Indigenous Knowledge and Practices
- Disaster Finances: Response Funds, Financial Aid, Compensations and

Disaster Insurance.

Lab Based Practice/ Field Based Practical (8 hrs)

- Field Visit to NDMA/ NIDM/IMD/ National Centre for Seismology or
- Mapping Community Based Disaster Management (Strategies or Practices) within institutional premises or neighbourhood

Unit 4: Data Assessment and Analysis: (13 hrs)

Theory (3 hrs)

- Data Procurement - Primary and Secondary: Survey and Questionnaire Method, Literature Review, Disaster Report Evaluation, Open Data Sources, Open-Source Maps and Images
- Data Analysis – Hazard Assessment (Hazard Mapping, Transect Walk) Risk Analysis (Risk Matrix, Risk Index) Vulnerability Assessment: Physical or Social or Environmental or Composite Indicator Based Vulnerability Assessment.

Lab Based Practice/ Field Based Practical (10 hrs)

- IMD and Bhuvan Portal-Demonstration
- Computer Based Cartographic Representation/ Use of any analysis method/ Charts/ Diagram

Unit 5: Project Report: (60 hrs)

One Field Based Case Study of any disaster to assess perspective on components of Disaster Management/ Phases of Disaster Management: Pre disaster, During disaster, Post disaster depending on place and/or community specific issues related to it.

The Field Report can be either outside or within National Capital Region (NCR)

Teaching Plan

Theory/ Lectures (L)	15 Hrs (1 credit)
Lab Based Practice/ Practical	30 Hrs (1credit)
Field Excursion/ Study	60 Hrs (2 credit)
Total hours	90 Hours

The Examination hours and marks distribution will be as per University Norms.
